PURPOSE OF CIRCULAR:

To advise that the MV3073 Notice and Order has been revised and updated.

BACKGROUND:

The Commercial Vehicle Police Enforcement community (CVPE) identified a need to create an enforcement form that would allow more writing room so violations and warnings could accurately be described when being issued to commercial vehicle operators. A planning group was created with members from Vancouver, Abbotsford and RCM Police to review and develop possible solutions. It was decided the enforcement community did not need another form as there are already too many to carry around. It was decided the MV3073 Notice and Order could be modified which would allow it to be used for all traffic enforcement activities. Multi-vehicle combinations can now be sent in for inspection while issuing only one "piece of paper". It also allows for more writing room which the officer can use to accurately reflect defects or warnings. Over the past 12 months testing has occurred by many Police agencies with unanimous support for implementing the new form.

Attached is a copy of the new Notice and order, it will be available once the remainder of MV3073 Notice and Order stock is depleted.
